### EXAMINER'S AMENDMENT

1. In the prior Office Action of April 3, 2003, claim 10 was grouped in Invention I. However, since claim 10 is a product claim, it is now grouped in Invention II. The two Inventions are now:

I. Claims 1-9, drawn to a process for working up an aqueous polymer latex component;

II. Claims 10-13, drawn to polymer components and thermoplastic molding composition.

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Gary Matz on September 12, 2003.

The application has been amended as follows: Claims 10-13 have been cancelled.

### *Allowable Subject Matter*

3. Claims 1-9 are allowed.

4. The following is an examiner's statement of reasons for allowance: no prior art has been found to teach, disclose, or fairly suggest a process for working up an aqueous polymer latex component, the improvement comprising coagulating the latex after polymerization in the presence of a salt of an acid selected from hypophosphorous, phosphorous, or ascorbic acid; in

combination with all of the other limitations of claim 1. The examiner is relying on Applicants' arguments on page 5 of the Remarks as the basis for allowance.
